John Figueroa

David Gonzalez

# City Escape Resort

In the project, we are working on the feedBack from The City Escape Resort

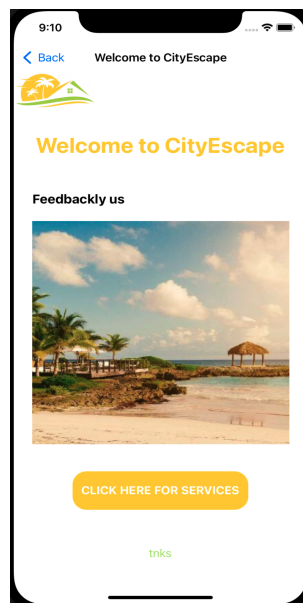

The purpose of the app is to collect feedback from guests, to continually improve CityEscape Resort services.

The solution will use:

IOS, Swift, CoreData, keyChain, protocols, animation, sounds, etc.

**Documentation:** [Team D](#)

**Code:** [git-hub](#)

With this project we have learned and applied fundamental concepts for development in ios with swift, as well as the administration of a software engineering project

**Many thanks**
